Emergency Call Out Charge - £90.00		£483.75
Travel and Labour Charge - £393.75		
Site Date: 22/05/2018		
Fitter attended site in response to emergency call out to find F.2.2 fault code showing TS981 panel. Safety edge operated in two consecutive cycles. Fitter tested all four safety edge batteries showing 3.6V. Fitter reset panel and tested, all ok. No objects or obstruction. Whilst fitter was writing report he noticed a black BMW pull up to the shutter which was in the closed position, a lady got out of the passenger door and the shutter opened and the car went through. As the shutter started to close the lady activated the safety edge by squeezing the rubber, fitter explained that she should not be doing this and that this was the cause of the shutter staying open. CCTV to be installed.
