Description of Works		Value
TIME AND MATERIALS {\$"binary": {"base64": ""}}		£545.00
Site Date 05/11/2021 Attended site prior to 7.30 for meeting with Perry and Jake regarding on going issues.(Perry not attending due to illness) Shutter found closed and working. On test found shutter to stop and reopen, traced to external light curtain activating for no reason. Connected blue tooth dongle and read data, all recent events are light curtain activations. Changed over ports to fault find if it is a curtain or controller issue. Run shutter and no fails after 15 cycles, so unable to say if the issue is fixed. Ongoing fitter suggests either fitting a new light curtain external like was recently carried out for the internal or do away with the light curtain and retro fit a wireless edge and low level photo beam. (Gfa with carrier 5500 long, photo beam with housing)
